Hello everyone

We break up today for our **TWO WEEK Easter holidays**. On behalf of the school Governors, I would like to share our **sincere thanks to all the children and staff who have worked incredibly hard this term**, and to the parents and carers for their continued support. We will be reinforcing our high expectations about attendance and punctuality in the Summer Term, and are looking forward to celebrating the children's efforts to be in school every day and on time—the hard work to achieve a **Golden Ticket in the Summer Term** (and be rewarded with a fun day out!) starts in earnest after the holidays! The children return to school after the two week holiday on **Tuesday 9th April from the usual time of 8.30am, and no later than 8.45am!**

A BIG thank you to everyone for helping us to raise **£141.92** for Comic Relief. We really appreciate your support in helping others.

Also, we are really excited to be exploring the books written by the author **Hanna Alkaf** next term. She is our '**Author of the Month**' for April! Please find out more about her further on in this newsletter...

And what a way to end this term! **Year 5 put on a magnificent performance during their Easter Assembly** today! All the hard work and effort put in by the children and staff certainly paid off, and we were very impressed by their confidence and creativity. Thank you and well done Year 5, you should be very proud!

Have a great holiday and stay safe everyone!

**Cathy Grace, Headteacher**

## ARTICLE OF THE WEEK

### March 22nd is World Water Day.

We all know that water is vital for everyone in their daily lives across the world, and back in 2015 the world committed to working together to make sure that everyone has access to safe, clean water and good sanitation. This was Sustainable Development Goal 6.

But there is still much work to be done with over 2 billion people drinking unsafe water. An important aim of World Water Day is to inspire everyone to take action and make the necessary changes so that the right to clean water can be achieved by 2030 for everyone.

### EXPLORING WORLD WATER DAY

## World water

Water is vital for good sanitation and flushing our toilets.

Drinking dirty, unsafe water can cause major illnesses.

Why do you think that the right for clean water is such an important thing?

Our body is made 60% of water.

## Day 6

In many communities, children are unable to attend school as they spend time collecting water.
